HH@Kallang, 56 Kallang Pudding Road, #09-01, Singapore 349328

Reg No. 201616138C

Technical Specialist (Technician)

Job Description:

1. Establish an in-house technical capability to demo & deploy robots and machines, as well as keep them in top condition post-sale including planned maintenance and repairs.
2. The technical support will have two main roles; support the sales team during demos and deployments as well as to conduct routine repairs on the robots and machines.

Main Tasks:

- 1) Undergo training and knowledge transfer with a Technical Specialist in Singapore
- 2) Support and repair robots and machines in the field. This could be electrical, mechanical, or even software related repairs
- 3) Support the sales team by helping them do demos and deployments at customer site
- 4) Communicate with overseas technical teams to troubleshoot hardware repair problems or problems encountered doing demos and deployments
