

Be part of Singapore's effort in becoming the Smart Nation with GovTech

Join the GovTech-PTP Programme

Singapore Polytechnic (SP) partners Government Technology Agency of Singapore (GovTech) to offer a year-long internship known as "Polytechnic Technology Programme" (PTP) to selected year-3 students of the **Diploma in Computer Engineering (DCPE)** of the School of Electrical & Electronic Engineering. Students will be doing internship with the GovTech's **Sensors and IoT (SIoT) Team** for 12 months, spanning over the year-3 of the DCPE course.

The GovTech-PTP is possible only if you enrol in one of the following diploma courses offered by the School of Electrical & Electronic Engineering (EEE) at Singapore Polytechnic

- **Diploma in Computer Engineering (DCPE) - S53**
- **Common Engineering Programme (CEP) - S40**

If you are enrolled into DCPE course in Semester 2 of Year 1

In partnership with

What is a Polytechnic Technology Programme (PTP)?

This is a year-long internship programme that allows DCPE students to be attached to the Sensors & IoT Team of GovTech for exceptional internship experience. Curriculum is adjusted to allow students to use the project assignments at GovTech to substitute some modules in the curriculum.

Benefits?

- Invaluable internship experience at a government agency that drives the Smart Nation project of Singapore.
- Opportunities of involvement in Internet of Things (IoT) projects.
- Monthly internship allowance and benefits for 12 months.
- Possible direct hire after internship
- Application of Smart Nation Scholarship

Who are eligible?

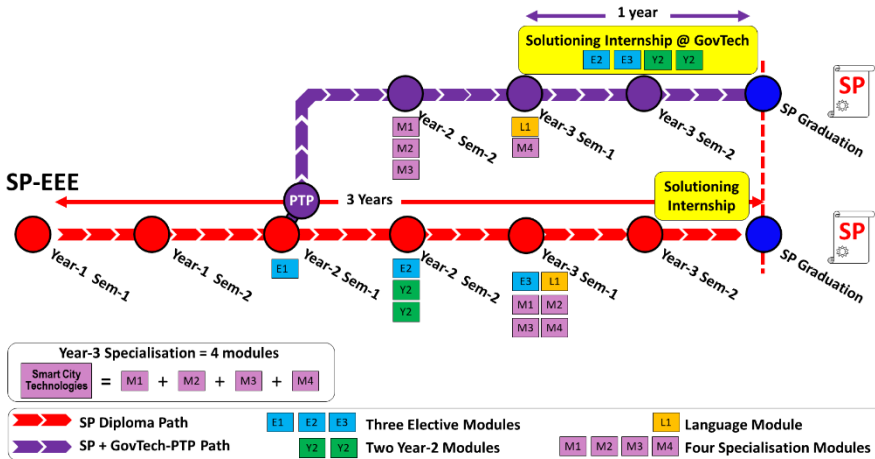

- A student of Diploma in Computer Engineering choosing "Computer Engineering & Software" for year-2 path
- Opt for year-3 specialisation in "Smart City Technologies"
- Singapore citizen or Permanent Resident
- Have scored at least "C6" in GCE 'O'-level Additional Mathematics

Application & Selection Criteria

- Students may apply during Year-2 Semester-1
- Selection of students will be by merits and interview
